

## HI Savings Safari Club Member,

Here at Northwest United Federal Credit Union, we are excited to bring back the Savings Safari Club. Being a member of Northwest United and under the age of 13 you are automatically entered into the Savings Safari Club. The primary focus of this program is to help educate children with the help of their parents about the credit union and the importance of saving. And have FUN!!!!

We have fun characters that are "mini-experts" about different aspects of money. All the animals like to save their money, but each will give additional information on topics such as: what is a credit union, how to budget, and how to spend money wisely just to name a few.

Some of the FUN things you have to look forward to:

- Newsletter with games, puzzles and savings information,
- Special contest and events,
- Birthday card,
- Club membership card,
- Savings Passbooks,
- Chance to earn special incentives for making deposits
- And many other things to be added later.

The Savings Safari Club is a fun and adventurous way for you to watch your money grow and to learn smart money saving habits.

We look forward to seeing you often and that you will make it a habit to put some of your allowance and money you earn doing extra chores into your account each week.

**It is fun to "Stretch your savings" at Northwest United!**

Bring in your newsletter and receive a Special Savings Safari Bank!

### FUN MONEY FACTS

It takes about 490 one-dollar bill to make one pound

The Golden Dollar has no gold in it... it is actually made of 88.5% copper, 6% zinc, 3.5% manganese and 2% nickel.

Dollar bills are printed on a special paper made out of cotton, linen and silk. Look closely at one and you can see the red and blue threads.

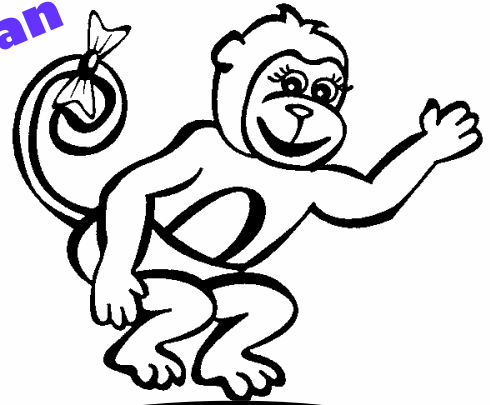

Pennies are made in only two places... Denver, Colorado and Philadelphia, Pennsylvania.

The recipe for the black and green inks used in printing dollar bills is top secret... and only the people who know it work for the Bureau of Engraving and Printing.
